FCC Chairman Tom Wheeler's plan would let Internet service providers like AT&T, Comcast and Verizon create a two-tiered Internet, with fast lanes for those who can afford the extra fees and a slow dirt road for the rest of us. These companies would have the power to pick winners and losers online and discriminate against online content and applications. And no one would be able to do anything about it.

Throw out FCC Chairman Tom Wheeler's rules and instead reclassify ISPs as common carriers.

This is the ONLY way to protect real Net Neutrality.
