I am writing to state my support for RFD-TV. At present I have Verizon FIOS and pay extra for RFD-TV because it is a station that has the family type of programming you cannot find elsewhere. However many cable companies have discontinued this station or do not offer it at all. I have no interest in the merger involved, but am merely stating my support for RFD-TV and family programming. Less and less do you find anything on TV worth tuning into. More and more you find programs that are undermining the values we treasure. KEEP RFD-TV!
