**Compliance – Voice and Broadband**

In establishing this certification in its *2005 ETC Order*,<sup>1</sup> the FCC found that an ETC must make “a specific commitment to objective measures to protect consumers.”<sup>2</sup> The FCC found that for wireless ETCs, compliance with CTIA’s Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis.<sup>3</sup> In this context, the FCC stated, “to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement.”<sup>4</sup>

Community Telephone Company (“Company”) hereby certifies that its voice service complies with applicable service quality standards and consumer protection rules under the Texas Administrative Code, Title 16, Part II, as established by the Public Utility Commission of Texas. These obligations include, but are not limited to, the following: (1) filing a Local Exchange Tariff which discloses rates, terms and conditions of service to customers pursuant to Subchapter J requirements in Sections 26.201-26.230; (2) adherence to state consumer protection requirements

governing telephone providers as identified in Subchapter B, in Sections 26.21-26.37; and (3) service quality standards requirements as identified in Subchapter C, Sections 26.51 -26.57. In addition, the Company complies with numerous federal consumer protection standards including, but not limited to: (1) Truth-in-Billing Rules outlined in 47 CFR § 64.2401; and (2) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

For its broadband service, Company hereby certifies that while there are no applicable state broadband service quality standards and consumer protection rules yet established under the Texas Administrative Code by the Public Utility Commission of Texas, the Company discloses rates, terms and conditions on its public web site and the Company complies with applicable federal and state customer protection standards generally applicable to all businesses operating in Texas. In addition, the Company adheres to consumer protection obligations for broadband services under federal law. These obligations include, but are not limited to, the following: public disclosure of accurate information regarding network management practices, performance, and commercial terms of broadband internet access services; as a means of providing sufficient information for consumers to make informed choices regarding use of such services, and for content, application, service and device providers to develop, market, and maintain internet offerings as specified in F.C.C. 47 C.F.R. **Response to Line 610 - Ability to Function in Emergency Situations  
for Voice and Broadband**

Community Telephone Company (“Company”) hereby certifies that it is able to function in emergency situations as set forth in the Code of Federal Regulations, Title 47, Part 54, Subpart C, §54.202(a)(2)<sup>1</sup> and the Texas Administrative Code. The Company’s network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations also allows the Company to manage traffic spikes throughout its network, as emergency situations require.

Specifically, the Company is able to function under emergency operations in accordance with Public Utility Commission of Texas Substantive Rules §26.51 *Reliability of Operations of Telecommunications Providers* and §26.52 *Emergency Operations* which include obligations for continuity of service and emergency operations planning and service provision capability for dominant carriers. Any central office not equipped with permanently installed standby generators contains as a minimum four hours of battery reserve without voltage falling below the level required for proper operation of all equipment. In addition, all central offices without installed

<sup>1</sup>Section 54.202(a)(2) requires ETCs that are designated by the Commission to “demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.”

emergency power facilities have a mobile power unit available which can be delivered and connected on short notice.

The Company's standby generators and battery back-up equipment support both voice and broadband network equipment in the event of an emergency situation.
