I am concerned about the proposed merger of Att&t with DirectV. This I feel with the present atmosphere threatens the Programing of such Stations as RFD-TV and other rural programing stations. The trend I see is to move away from this type Programing that provides a wholesome and decent style of family oriented programs. Program such as Larry's Diner and farming and ranching programs serve a wide audience and the reason we subscribe to the service. I am asking that you take a hard look at the probabilities that would take away this type programing. We need to get back to the basics of living and steer away from the violent fantasies of most of the other stations. Thank you, WR Dale
