I want to be able to watch RFDTV and I don't want the big cable companys to take that away from me. Comcast does not have that channel in their line up. I love Dish because they give us that choice of watching what we want to see.... good family centered and good clean shows. Please don't let them merge and take that away from us. When companies get to big they forget about those of us who are christians and country folks. Help us keep our values and principles to teach our children through good clean TV shows.
