

7521339639.txt

I receive RFD through our city provided cable service. I did grow up on 50 acres in the 1950's and on. I am a 68 year old single man. I have enjoyed the "country" life growing up. My father worked a factory job and the "farm" kept we three boys and a girl busy. We also grew our own meat eggs and vegetables..... YES the glass "can" canning. We picked wild berries (through the briars) and enjoyed the fruit. The current RFD programming reminds me of years ago, BUT it TEACHES the younger generation WHERE food comes from!!!! Please work to include RFD in these mergers.

THANK YOU, Roger BAIZE
