Please continue to carry RFD TV to keep contact between the urban and rural areas. This is an American programming and needs to remain. How can you allow this merger or any merger contract with Aljarzee and BBC to be on the programming and not RFD TV. We are farmers and look at all kinds of reports on a daily basis. We enjoy the programming of RFD TV. Please consider keeping a place for RFD TV in the merger. The Comcast spokesperson was very arrogant leaving out the rural people. We are as important as the urban sector.
