I am writing to please KEEP RFD TV as a part of our TV viewing selection. This channel is important to ALL Americans simply due to the fact that only 1% of the country is farming and our city dwellers and urban friends need to have the choice to watch programs that give grass roots programming to view. It also provides many other facets of life that affect everyone in a good way in one way or another. It does not hurt anyone to give everyone the option to watch good TV. PLEASE do not abandon us and keep this amazing channel going for all Americans.
