WE are asking FCC to make sure that if the mergers of cable and satellite Companies through they allow the independent and Rural channels a place in their lineup. We personally watch RFD TV 95% of the time. In our estimation we wouldn't have any reason to even have satellite TV if it didn't include RFD TV . Many non farm and rural as well as city friends watch RFD TV. In our case it is the merger of AT&T and Direct TV that would directly affect us. I will inform Direct TV that I will quit them in a heart beat if they drop RFD TV.

Respectfully William Hayward
