I love RFDTV and I really encourage you to let it stay on the air. Honestly, I have no use anymore for TV period if it doesn't stay on. TV is so bad anymore and I really don't care for seeing someone naked or having sex or just down right cursing and using the F word. What is going on with the values of broadcasting companies? I'm sometimes ashamed to even think about the American people as a whole. Please Please let us keep watching RF channel 803 and 224.
