Subject: Illegal Communications Monopoly by ATT and Time Warner

These corporations control their respective markets as a monopoly, they should not be allowed to illegally to continue this business practice as it is against the law and the free enterprise system of this country. They are an example of what is wrong with big business in this country destroying healthy businesses in their corporate business plan path, our jobs, and our economy to economically benefit foreign businesses and their corporate interests. They simply have too much power and should not be allowed to proceed with their petition to merger. They have a negative influence on our country and its citizens and our constitutional rights. Thank you for your time in looking at this issue.
