Every time we get a good TV (Station) like RFD-TV, (Dish) that handles good programming, such as Larry's Country Diner, Country's Family Reunion, Horse Shows, Marty Stewart, Old Tractor Shows, Auctions and important information for our Farmers. And many other shows that has no bad language, sex or programs that you can't even watch with your children. Then someone wants to change things.

We have so many programs on other TV Stations that has nothing but murders, drugs and shows that you have no interest in at all. So why do you want to try to fix something that don't need fixing. It is getting so bad we have been talking to a lot of people that say we just as well go back to the old TV Antenna, at least you can watch the news and local stations. That is all that is worth watching anyway.

You have 200 channels that are selling, or advertising something on over half of the channels, and some of the same on different channels. If we could pick our channels we wouldn't have all of that junk that you can't watch anyway. LEAVE IT ALONE!
