

Hi, sorry about forgetting our conversation on Thursday.
I talked to three clients concerning DVD project that day.

You said you'll need 25 half hour shows CCed and mastered to a DVD,

or if we can get the process working we could send you a CC 'file' and you'll create the physical DVD.

You'd send us a media file via Internet and we'd use Above Encore to create the physical DVD.

These prices are as of today (6/6/'14) and do not expire for this project.

If we create the physical DVD, the cost per show is \$125; thus for all 25 shows it would be \$3125.

If we can go the CC file process, cost is \$100/show; thus for all 25 shows it would be \$2500.

Shipping costs are included if we send you the DVD (using Fedex 2nd day)

(I'll do some testing with Sony Architect -- comes with Vegas.)

Any questions, give me a call
