I have Direct TV and RFD station is one of the best family stations on TV. It is appropriate for all the family unlike some of the other programs on TV. Very educational for young and old. I will not subscribe to a cable company that does not have RFD station. Direct TV has RFD now and I certainly hope when they merger with AT&T, they keep the same stations they have now. That is the reason I don't take the cable TV with AT&T because they don't offer RFD station. This is the most watched channel on our TV. Please don't allow the cable stations to do away with RFD.
