Washington, DC 20554
CG Docket No. 06-181''

Case # CGB-CC-0044
Petition for Closed
Request for Supplemental Information

I am replying to your letter dated May 30, 2014, regarding closed captioning requirements for the program "Joy in the Morning with Danette Crawford" based on the undue burden standards set forth in the Commission's Rules.

According to your letter, in order to satisfy the requirement of "documentation" of recent quotes, we needed to "provide documentation for at least one more recent quote from a closed

captioning service provider."

* Please See ATTACHMENT (CLOSED CAPTIONING-Studio Center), which includes documentation for a Closed Captioning Quote from Studio Center in New York, NY. I am attaching the quote to this email. Another version of the quote may also be found in the document (FCC Request 6.13.14)

In order to further satisfy requirements for the "estimate of our annual cost to caption our program," we needed to "provide an estimate of our annual cost to caption our program based on at least one more captioning quote for which we provided documentation."

* Based on the Closed Captioning quote from Studio Center, It would cost us at least \$20,800. This does not include the shipping and handling costs or all of the tape stock that we would need. This estimate does not reflect the true cost that it would be to the ministry as the expense would double when we factor in shipping and handling and the additional tape stock. This also does not include integrating closed captioning on previously recorded programs.

Again, we respectfully request that "Joy In the Morning" be exempt from the closed captioning requirements. Please see the attached AFFIDAVIT. Thank you.

Sincerely,

Danette J. Crawford, President
Joy Ministries
