We join others in pleading to be able to view RFD channel. It embodies our belief system and provides entertainment that is wholesome and varied. We would seriously consider dropping any cable coverage if that channel were not available in our rural area. It is sad to pay the amounts we do and only watch a very small number of cable shows regularly. Therefore, we ask that you kindly consider that we can continue to receive the RFD channel in our area, Nebraska, as well as other parts of this country. Thank you for your serious consideration.
