

7521351516.txt

I am hoping this merger does not adversely affect independent stations, specifically RFD-TV. I understand RFDT has already been removed in two western states. Also I hope religious stations such as EWTN are not removed. I do not think this merger is in the public interest. I am also opposed to the possible merger of Direct TV and ATT. Please protect the rights of independent TV stations and the individual.
