WE enjoy FAMILY NET on our AT&T service and would like to have RFD-TV also. I am an old FARM BOY FROM NORTH DAKOTA. I pick up RFD-TV on my computer for MOLLIE B shows and many other country shows. Where else can you get tractor auctions and tractor pulls along with horse shows etc. I watch farm news reports and enjoy the new farm equipment adds. There are many farmers or past farmers that live in a town or city and to say that the metro areas should not have RFD-TV is nuts. There fore please insist that these mergers continue to carry RFD-TV and all other of the RFD-TV family. Thank you Russell Hel tne
