I have been watching R.F.D. T.V. for several years along with my husband and we have enjoyed it ver much. It's refreshing to watch good decent family viewing when everything on other stations are are questionable anymore. Please allow R.F.D. T.V. to stay on where needed for folks like myself who enjoy family programing. I use to be a city girl until I met my husband who was a true cowboy gentleman and I learned how special country people are. Without your farmers, ranchers, etc. people wouldn't be enjoying their steak dinners or great salads at a veggen café. Please give them their chance at their own T.V. station and programming. It's also American made and I appreciate that because I'm an American Hispanic who loves her country and western roots implanted to love by her husband.
