Please do not screw up this critical issue... critical to the idea of entrepreneurship in America and the world, critical to the idea and reality of free speech. As with all subsidized corporate friendly policy: if there is a chance to abuse it and profit from it, it will be done. That is THE JOB of corporations. It is not good or bad, but it is their role to maximize profits above all else. I do not trust their motives aligning with my best interests especially given the potential of monopoly for Internet Providers that is looming (with one of them only behind the Military Industrial Corporate interests with regard to commitment to monied political influence...). DO NOT ALLOW FOR THE POSSIBILITY - NOW OR EVER - OF EITHER OVERREACH OF CONTROLLING PARTISAN GOVERNMENT OR THE POTENTIAL FOR ABUSE BY MONOPOLISTIC PROFIT DRIVEN INTERESTS TO EVER GAIN EVEN A TEMPORARY BEACHHEAD WHEN IT COMES TO THE FUTURE OF FREE SPEECH. INTERNET DELIVERY IS A SERVICE TO BE DELIVERED OR NOT; I DENY ANY OUTSIDE INTEREST THE ABILITY TO QUALIFY/INTERFERE WITH SERVICE THAT EMBODIES MY CONSTITUTIONAL RIGHT TO HEAR AND CONTRIBUTE FREE SPEECH. PRESERVE STRICT NET NEUTRALITY - PERIOD.
