<1100> Terrestrial Backhaul (Y/N)? (if no, check to indicate certification)

<1110> (complete attached worksheet)

<1200> Terms and Condition for Lifeline Customers (complete attached worksheet)

Price Cap Carriers, Proceed to Price Cap Additional Documentation Worksheet

Including Rate-of-Return Carriers affiliated with Price Cap Local Exchange Carriers

<2000> (check to indicate certification)

<2005> (complete attached worksheet)

Rate of Return Carriers, Proceed to ROR Additional Documentation Worksheet

<3000> (check to indicate certification)

<3005> (complete attached worksheet)

(100) Service Quality Improvement Reporting Data Collection Form	FCC Form 481 OMB Control No. 3060-0986/OMB Control No. 3060-0819 July 2013
---	--

<010>	Study Area Code	383303
<015>	Study Area Name	SRT COMMUNICATIONS
<020>	Program Year	2015
<030>	Contact Name - Person USAC should contact regarding this data	Julie Lizotte
<035>	Contact Telephone Number - Number of person identified in data line <030>	7018585233 ext.
<039>	Contact Email Address - Email Address of person identified in data line <030>	julieel@srttel.com
<110>	Has your company received its ETC certification from the FCC?	(yes / no) <input checked="" type="radio"/> <input type="radio"/>
<111>	If your answer to Line <110> is yes, do you have an existing §54.202(a) "5 year plan" filed with the FCC?	(yes / no) <input type="radio"/> <input checked="" type="radio"/>

If your answer to Line <111> is yes, then you are required to file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

<112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

Name of Attached Document

Please check these boxes below to confirm that the attached document(s), on line 112, contains a progress report on its five-year service quality improvement plan pursuant to § 54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

- <113> Maps detailing progress towards meeting plan targets
- <114> Report how much universal service (USF) support was received
- <115> How (USF) was used to improve service quality
- <116> How (USF) was used to improve service coverage
- <117> How (USF) was used to improve service capacity
- <118> Provide an explanation of network improvement targets not met in the prior calendar year.

Initial Five Year Plan (2015 - 2019)

SRT COMMUNICATIONS, INC. (383303)

(510) COMPLIANCE WITH APPLICABLE SERVICE QUALITY AND CONSUMER PROTECTION STANDARDS

47 C.F.R. §54.313(a)(5)

FCC FORM 481, PROGRAM YEAR 2015

SRT Communications, Inc. ("SRT") shall comply with the service quality and consumer protection standards established below in providing the basic telecommunications service to its end-user customers.

1. Customer Care Service Answered and Attended - The duration from the time the address information required for setting up a call is received by the network to the time the SRT representative answers the call. Also, availability of adequate personnel to provide sufficient customer care.
 - (a) SRT's standard answer time is one to three rings.
 - (b) SRT has sufficient personnel to handle customer calls and/or customer visits for residential and business general customer service, billing and credit assistance. Also, SRT's Network Operations Center provides after hour customer care.

2. Availability of Service – The interval between the customer request for installation of voice grade service and the provision of the service by SRT.
 - (a) If the outside plant is dedicated to the customer premise, the standard installation time for voice grade service is within 24. If the outside plant is not dedicated, service is provisioned within 72 hours.

3. Customer and/or Non-Customer Reported Trouble – The duration from the time a customer notifies SRT of a trouble, or when a trouble is detected by SRT, to the time when the service has been restored to normal working order.
 - (a) SRT's policy is to repair service to normal working order within 24 hours for out of service reports, and 24 hours for service affecting reports.

4. End User Billing, Timing and Accuracy – The measure of the number of incorrect bills per 1,000 bills issued. An incorrect bill is one which has been determined by SRT to have been issued with a billing error.
 - (a) SRT's billing disputes are less than 1% on a monthly basis.
 - (b) Any billing dispute is resolved immediately. If credit is due to the customer, the credit will appear on the next billing statement.
 - (c) SRT bills on a monthly basis. Customers can elect to have paper statements mailed to their residence or business, or they can elect to receive their bill on-line.
 - (d) Customer's may use SRT's on-line bill pay, pay with a credit card by phone using SRT's automated bill pay method, or they can visit either of SRT's two locations to pay their bill in person.

5. Subscriber Loops – Transmission – All voice-grade trunk facilities shall conform to accepted transmission design factors and shall be maintained to meet the following objectives when measured from line terminals of the originating central office to the line terminals of the terminating central office.
 - (a) Loop resistance is 1500 ohms to 2600 ohms. CO line treatment is incorporated when loop resistance > 1500 ohms.
 - (b) Loop voltage is between 44 and 56 volts DC.
 - (c) Subscriber lines. All newly constructed and rebuilt subscriber lines shall be designed for a transmission loss of no more than eight decibels from the serving central office to the customer premises network interface. Subscriber lines shall in addition be constructed and maintained so that metallic noise does not exceed 20 decibels above reference noise level ("C" message weighting).
 - (d) PBX, key, and multiline trunk circuits. PBX, key, and multiline trunk circuits shall be designed and maintained so that transmission loss at the subscriber station does not exceed eight decibels. If the PBX or other terminating equipment is customer owned and if transmission loss exceeds eight decibels, SRT's responsibility shall be limited to providing trunk circuit with no more than five decibels loss from the central office to the point of connection with the customer facilities.

6. Customer Dialing and Call Completion Standards – Sufficient central office capacity and equipment shall be provided to meet the following requirements.
 - (a) Local dial service. Provide dial tone within three seconds on at least 98% of calls.
 - (b) Completion of 98% of intra-office calls (those originating and terminating within the same central office building) without encountering an equipment busy condition or equipment failure.
 - (c) Engineering and maintenance of the trunk and related switching components in the toll network shall permit 97% completion on properly dialed calls without encountering failure because of blockages or equipment failure.

7. Disconnection and Reconnection of Service – The period where SRT disconnects and reconnects service after overdue payment is received.
 - (a) SRT will work with the customer to set up payment arrangements. If agreed upon payment arrangements are not followed and new terms cannot be satisfactorily fulfilled, then the account can be disconnected for non-pay.
 - (b) Service disconnection for non pay will take place three months after customer has not paid for essential services.
 - (c) Reconnection will occur when essential service charges are paid in full, and service will be reconnected within one hour.

8. Consumer Protection – SRT has security measures in place to avoid call detail and customer account record information from being distributed to unauthorized parties.
 - (a) SRT complies with the FCC's Customer Proprietary Network Information ("CPNI") and Red Flag requirements. Also, SRT posts an On-line Privacy Policy on ww.srt.com.

SRT COMMUNICATIONS, INC.

(610) FUNCTIONALITY IN EMERGENCY SITUATIONS

47 C.F.R. § 54.313(a)(6)

47 C.F.R. §54.202(a)(2)

FCC FORM 481, PROGRAM YEAR 2015

SRT Communications, Inc. has battery back up in the Host Central Office and all Remote Central Offices that provide at least 8 hours battery back up in the event of a commercial power failure. In addition, the Host Central Office and many Remote Central Offices have diesel or natural gas electric generators to support the office in the case of an extended power outage. Those Remote Offices that do not have on site generators can be supported by portable generators via a generator plug and transfer switch.

All Remote Central Offices are connected to the Host Central Office via industry standard Synchronous Optical Network (SONET) technology that routes traffic in a redundant ring configuration. Traffic is automatically re-routed in the event of equipment or outside plant failure. Traffic is monitored monthly to ensure voice trunks are sufficient at each Remote Office during normal business and unexpected high traffic events.

Short term emergency situations are monitored by the Network Operations Center, 24 hours per day, 365 days per year. Extended, critical, or time-sensitive emergency situations involve the SRT Crisis Management Team which responds with all required resources up to the executive level.

Yes

SRT
COMMUNICATIONS

383303 (900)

October 21, 2013

Mr. Richard McCloud, Chairman
Turtle Mountain Band of Chippewa Indians
4180 Hwy. 281
Belcourt, ND 58316

Dear Mr. McCloud,

In accordance with the Federal Communications Commission's (FCC) release of the recent USF/ICC Transformation Order (Order), the FCC is working together with the Office of Native Affairs and Policy (ONAP) and the Wireless Telecommunications and Wireline Competitions Bureaus to provide guidance on the Tribal engagement obligations adopted in the Order. The goal is to create substantive dialogue between communication providers and Tribal Nations, and to focus on identifying commonalities, increasing efficiencies and building relationships.

Since SRT Communications, Inc. ("SRT") serves Tribal lands in the Northeastern portion of Rolette County, we would like to encourage Tribal leaders to review the following: (1) a needs assessment and deployment planning with a focus on Tribal community anchor institutions; (2) feasible and sustainability planning; (3) marketing services in a culturally sensitive manner; (4) rights of way process, land use permitting, facilities siting, environmental and cultural preservation review processes; and (5) compliance with Tribal business and licensing requirements.

If you would like to engage in further conversation with SRT's management, please let us know and we would be glad to arrange a visit. Hopefully SRT is doing its part to provide your community with the most reliable and updated services possible.

Sincerely,

Steven D. Lysne
CEO, General Manager

LOCAL SERVICE
LIFELINE SERVICE

A. General

1. The Federal Communications Commission and the North Dakota Public Service Commission require that an Eligible Telecommunications Carrier must offer Lifeline assistance to non-Tribal Land customers, and Enhanced Lifeline and Link-up assistance for Tribal Land customers. Tribal Lands include any federally recognized Indian tribe's reservation, pueblo, or colony.
2. Lifeline service means qualifying low income subscribers pay reduced charges for residential local telecommunications service.
3. Tribal and Non-Tribal Lifeline service includes:
 - Voice grade access to the public switched network.
 - Unlimited local minutes of use provided at no additional charge. Toll charges will be applicable at the rates specified by your long distance provider.
 - Access to emergency 911 services. Applicable 911 fees will be charged depending on county.
 - Toll limitation service at no charge.
4. A service deposit shall not be collected in order to initiate Lifeline service if the qualifying low income subscriber voluntarily elects toll blocking.
5. Lifeline assistance is not available when a subscriber is already receiving one or more Lifeline services concurrently, or one or more subscribers in a household are receiving Lifeline services concurrently.
6. All Lifeline customers will be required to recertify on an annual basis.
