The following is information for Grandview Mutual Telephone Company regarding compliance with applicable service quality standards and consumer protection rules.

Grandview Mutual Telephone Company complies with the service quality standards pursuant to Subpart A, Section 730.100 of Title 83, Chapter 1, Subchapter f of the Illinois Administrative Code. Subpart E of this section addresses "Standards of Quality of Service". Subpart A, Section 730.115 requires the quarterly reporting of various installation, repair and answer time data for Illinois Commerce Commission and public review.

Grandview Mutual Telephone Company complies with the requirements of 47 CFR Part 64 Subpart U, Customer Proprietary Network Information and Subpart Y, Truth in Billing Requirements for Common Carrier, and Federal Trade Commission Red Flag rules to prevent identity theft. A manual for CPNI and Red Flags is in place and employee training is conducted annually. New hires are instructed on the programs as required by their job functions.

The following is information regarding the ability of Grandview Mutual Telephone Company to function in emergency situations.

The Company has a natural gas generator and batteries for backup power for the switch. There is adequate switching and transport capacity available in the Company's network to handle potential traffic spikes during emergency situations.

Grandview Mutual does not have complete redundancy with one physical route out of its local service territory from the switch to the connecting company. Due to the size and financial resources of the Company, it would be cost prohibitive to invest in a ring configuration or other redundant routing.
