The following is information for Montrose Mutual Telephone Company regarding compliance with applicable service quality standards and consumer protection rules.

Montrose Mutual Telephone Company complies with the service quality standards pursuant to Subpart A, Section 730.100 of Title 83, Chapter 1, Subchapter f of the Illinois Administrative Code. Subpart E of this section addresses "Standards of Quality of Service". Subpart A, Section 730.115 requires the quarterly reporting of various installation, repair and answer time data for Illinois Commerce Commission and public review.

Montrose Mutual Telephone Company complies with the requirements of 47 CFR Part 64 Subpart U, Customer Proprietary Network Information and Subpart Y, Truth in Billing Requirements for Common Carrier, and Federal Trade Commission Red Flag rules to prevent identity theft. A manual for CPNI and Red Flags is in place and employee training is conducted annually. New hires are instructed on the programs as required by their job functions.

The following is information regarding the ability of Montrose Mutual Telephone Company to function in emergency situations.

The Company has natural gas or propane generators for backup power for the one host and three remote switches. Battery backup power is available for the Company's DSLAMs. There is more than adequate switching and transport capacity available in the Company's network to handle potential traffic spikes during emergency situations.

Montrose Mutual Telephone Company does not have complete redundancy with one physical route out of its local service territory from the host switch to the connecting company. Due to how the Company's exchanges and service territory are situated, it would be cost prohibitive to invest in a ring configuration or other redundant routing.

Voice Services Rate Comparability Information for Montrose Mutual Telephone Company

As evidenced by the data provided on line 700 of FCC Form 481, the Company's voice service pricing is no more than 2 standard deviations above the national average urban rate (\$46.96) as announced by the Wireline Competition Bureau on March 20, 2014 (DA 14-384).

The following is information describing the voice telephony service plan offered by Montrose Mutual Telephone Company to Lifeline Program subscribers.

Montrose Mutual Telephone Company offers tariffed residential basic local exchange service to Lifeline subscribers. This service provides a network access line and unlimited calling on a flat rate basis to all exchanges within the local calling area. The tariffed rate for this service is \$23.88 less the Lifeline discount of \$9.25 for a total of \$14.63.

For toll (long distance) calls outside of the local calling area, the Lifeline subscriber must choose an interexchange carrier and a long distance calling plan from that carrier. The rates for toll calls will be the rates charged by the Lifeline subscriber's interexchange carrier for the chosen long distance calling plan.
