GCI/UUI FCC TRIBAL ENGAGEMENT SUMMARY SHEET

Date of Discussion: 8/9/2013
Name of Tribal Representative(s): Luke Tirus
Name of Alaska Native Tribe: Minto Native Assoc.
Name of GCI/UUI Representative: Bob Welsh
Location/Medium of Discussion: Fairbanks, AK

Issues Discussed (Check all that were discussed and provide notes if applicable):

A needs assessment and deployment planning with a focus on Tribal community anchor institutions

Feasibility and sustainability planning . NEED to provide service that is dependable, would like to have cell service on the trail between Minto and Nenana.

Marketing services in a culturally sensitive manner No don't worry about this until you have good service to provide then worry about the culturally sensitive issues. This is good you asking.

Rights of way processes, land use permitting, facilities siting, environmental and cultural preservation review processes don't know at this time

Compliance with any Tribal business and licensing requirements

N/A

GCI/UII FCC TRIBAL ENGAGEMENT SUMMARY SHEET

Date of Discussion: 8/19/2013
Name of Tribal Representative(s): DONALD CHARLIE
Name of Alaska Native Tribe: Native Village NENANA
Name of GCI/UII Representative: BOB WOLSH
Location/Medium of Discussion: Fairbanks, Alaska - IN Person
Issues Discussed (Check all that were discussed and provide notes if applicable):

A needs assessment and deployment planning with a focus on Tribal community anchor institutions

Feasibility and sustainability planning - If we had better service and faster internet AND GCI was the provider, I would have to consider switching providers. The current service is too spotty and unreliable. There are new towers but still slow.

Marketing services in a culturally sensitive manner

It would be good but only when you have consistent and reliable service. Once that is determined then focus on the culturally sensitive marketing. I would consider switching if the product is better than what I have now.

Rights of way processes, land use permitting, facilities siting, environmental and cultural preservation review processes

Compliance with any Tribal business and licensing requirements

N/A

GCI/UII FCC TRIBAL ENGAGEMENT SUMMARY SHEET

Date of Discussion: 8/9/2013

Name of Tribal Representative(s): Paul Mountain - Tribal Administrator

Name of Alaska Native Tribe: Nulato Tribal Council

Name of GCI/UII Representative: Bob Walsh

Location/Medium of Discussion: WESTMARK HOTEL, FAIRBANKS, AK
IN PERSON

Issues Discussed (Check all that were discussed and provide notes if applicable):

Connectivity in Nulato, Both Internet & Cell Service

~~A needs assessment and deployment planning with a focus on Tribal community anchor institutions~~

Would like to see better service in Nulato, get off the current system and something more ~~reliable~~ RELIABLE they are currently served via satellite. Can't do business in today's world with this type of service.

Feasibility and sustainability planning

N/A

Marketing services in a culturally sensitive manner

when they get good service then think about this.

Rights of way processes, land use permitting, facilities siting, environmental and cultural preservation review processes

N/A

Compliance with any Tribal business and licensing requirements

N/A
