Targeted Engagement Efforts

As part of its efforts to strengthen positive relationships with the Tribal Nations within its serving territory while fulfilling new obligations set forth in Report and Order and Further Notice of Proposed Rulemaking, FCC 11-161, Qwest Corporation d/b/a CenturyLink QC (New Mexico) (CenturyLink”) extended an invitation to the tribal entities to meet and address issues of importance related to the provisioning of services on tribal lands. The purpose of these meetings was to discuss planning and potential deployment of service as well as other areas of interest specific to conducting business on tribal lands (as set forth in 47 C.F.R. §54.313(a)(9)) which at a minimum, would include:

- (i) A needs assessment and deployment planning with a focus on tribal community anchor institutions;
- (ii) Feasibility and sustainability planning;
- (iii) Marketing services in a culturally sensitive manner;
- (iv) Rights of way processes, land use permitting, facilities siting, environmental and cultural preservation review processes; and
- (v) Compliance with tribal business and licensing requirements. Tribal business and licensing requirements include business practice licenses that tribal and non-tribal business entities, whether located on or off tribal lands, must obtain upon application to the relevant tribal government office or division to conduct any business or trade, or deliver any goods or services to the Tribes, tribal members, or tribal lands. These include certificates of public convenience and necessity, tribal business licenses, master licenses, and other related forms of tribal government licensure.

Correspondence Resulting from Engagement Efforts

Initial letters were sent to the Tribal Entities on September 30, 2013. A second round of letters was sent to the Tribal Entities on December 19, 2013.

Governor Gregg Shutiva, Admin Derek Victornio
Pueblo of Acoma [Southwest]
PO Box 309
Acoma, NM 87034-0309

First, I would like to introduce Shelley Bailey, as your new Tribal Lands Liaison. If you have any questions or concerns, please don't hesitate to call or email her at 505-767-8514 or shelley.bailey@centurylink.com.

As Quarter 3 comes to a close, I wanted to share with you some updates on CenturyLink's continued progress as a follow up to our last letter in December of 2012. As partners equally vested in the growth and success of our communities and tribal land around the state, I thought you might find this information exciting and promising.

Network Upgrades and Internet Expansion

CenturyLink continues to invest millions of dollars in upgrading its network to maintain and improve its quality of service delivery as well as provide more businesses and house-holds access to high speed Internet and faster Internet with speeds up to 40M and well beyond. We are currently deploying our scheduled 2013 fiber deployments which will further these improvements. Additionally, CenturyLink has received funds from the Connect America Fund (CAF) which will enable the deployment of high speed Internet in 20 communities and tribal lands deemed "high cost" and thus otherwise may not see this type of investment.

Fiber to the Tower

CenturyLink is investing in "fiber to the tower" (FTTT) sites to support the growing data consumption associated with the increasing numbers of smart phones.

Local Community Investment

CenturyLink continues to invest in communities around the state. We are always looking for partnership opportunities as we focus on connecting people and communities, and enabling economic growth.

Savvis and Albuquerque Data Center

Through CenturyLink's recent purchases of Savvis and AppFog, we now are a world leader in managed hosted services which is a rapidly evolving and growing industry. Savvis allows businesses to save time and money while improving productivity. CenturyLink has 2.3 million square feet of data center space, 50 global data centers, 224,000 route-miles of network and 2 diverse internet backbones that are fully-owned and trusted by one data source. With applications from savvisdirect, services live in a

secure cloud, not on your network or the computers in your office. Which means you are free from worrying about or investing in new software, upgrades or maintenance. Along with these new competencies and related service offerings, CenturyLink in New Mexico boasts a 15,000 square-foot data center facility in Albuquerque with 24/7 physical security. This state-of-the-art facility is designed with the most advanced capabilities to protect and secure business equipment providing an ideal environment to facilitate information technology needs.

We are proud of our achievements over the past year and our increasing technological capabilities, and continue our efforts to provide New Mexico great access to quality services that meet the ever-changing needs of our customers.

Again, our local Market Development Manager and Tribal Lands Liaison, Shelley Bailey, will be your primary contact person. Please contact her directly at 505-767-8514 or shelley.bailey@centurylink.com with any questions or opportunities.

Pueblo of Acoma
GOVERNOR GREGG SHUTIVA
PO Box 309
Acoma, NM 87034-0309

Dear Dear Pueblo of Acoma,

CenturyLink values its relationship with the Pueblo of Acoma and the opportunity to provide services that meet the needs of CenturyLink's customers located on Tribal lands. CenturyLink is striving to maintain a positive relationship with members of the Pueblo of Acoma through ongoing communications and, as appropriate, periodic meetings.

In late 2011, the Federal Communications Commission ("FCC") initiated steps to reform and modernize the federal universal service support system to ensure that robust, affordable voice and broadband service are available to Americans throughout the nation including those residing on Tribal lands.¹ In accord with the FCC's actions, late last year CenturyLink requested a meeting with representatives of your Tribal Government/Council to discuss the planning and potential deployment of services on Tribal lands as well as other areas of interest specific to conducting business on Tribal lands. The FCC has advised that the following topics be discussed: (1) deployment planning with a focus on Tribal community anchor institutions; (2) feasibility and sustainability planning; (3) marketing services on Tribal lands; (4) rights-of-way processes, land use permitting, facilities siting, environmental and cultural preservation review process; and (5) Tribal business and licensing requirements.

The *USF/ICC Transformation Order* can be accessed on the FCC's website via the following weblink: http://fjallfoss.fcc.gov/edocs_public/attachmatch/FCC-11-161A1_Rcd.pdf

In furthering our goal of strong cooperative relationships with our Tribal customers, and the FCC's goal of comprehensive engagement with Tribal authorities regarding telecommunications services, CenturyLink would like to once again extend an opportunity to meet with the Pueblo of Acoma at your convenience.

For your convenience, I am attaching a reply form and envelope to facilitate the return of your response. The reply provides the opportunity for you to identify the Tribal representatives that would attend the meeting as well as identify issues of interest to you regarding CenturyLink and the services we provide. Please respond at your earliest convenience so that we can get a meeting date scheduled. Johnny Montoya, State Regulatory Affairs Director will coordinate the scheduling of our face-to-face meeting and work to identify additional CenturyLink personnel as needed to address your specific issues.

Please contact CenturyLink at 505-767-8510 or Johnny.Montoya@centurylink.com with any questions you may have regarding this letter. We at CenturyLink look forward to meeting with the Pueblo of Acoma and to continuing a strong relationship that is beneficial to all involved.

Thank you for your attention.

Pueblo of Cochiti
GOVERNOR J. LEROY ARQUERO
PO Box 70
Cochiti Pueblo, NM 87072-0070

Dear Dear Pueblo of Cochiti,

CenturyLink values its relationship with the Pueblo of Cochiti and the opportunity to provide services that meet the needs of CenturyLink's customers located on Tribal lands. CenturyLink is striving to maintain a positive relationship with members of the Pueblo of Cochiti through ongoing communications and, as appropriate, periodic meetings.

In late 2011, the Federal Communications Commission ("FCC") initiated steps to reform and modernize the federal universal service support system to ensure that robust, affordable voice and broadband service are available to Americans throughout the nation including those residing on Tribal lands.¹ In accord with the FCC's actions, late last year CenturyLink requested a meeting with representatives of your Tribal Government/Council to discuss the planning and potential deployment of services on Tribal lands as well as other areas of interest specific to conducting business on Tribal lands. The FCC has advised that the following topics be discussed: (1) deployment planning with a focus on Tribal community anchor institutions; (2) feasibility and sustainability planning; (3) marketing services on Tribal lands; (4) rights-of-way processes, land use permitting, facilities siting, environmental and cultural preservation review process; and (5) Tribal business and licensing requirements.

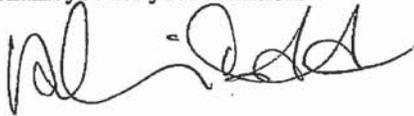

¹ *In the Matter of Connect America Fund; A National Broadband Plan for Our Future; Establishing Just and Reasonable Rates for Local Exchange Carriers; High-Cost Universal Service Support; Developing an Unified Intercarrier Compensation Regime; Federal-State Joint Board on Universal Service; Lifeline and Link-Up; Universal Service Reform - Mobility Fund*, WC Docket Nos. 10-90, 07-135, 05-337, 03-109, CC Docket Nos. 01-92, 96-45, GN Docket No. 09-51, WT Docket No. 10-208, Report and Order and Further Notice of Proposed Rulemaking, FCC 11-161, 26 FCC Rcd 17663 (rel. The *USF/ICC Transformation Order* can be accessed on the FCC's website via the following weblink: http://ejallfoss.fcc.gov/edocs_public/attachmatch/FCC-11-161A1_Rcd.pdf.

In furthering our goal of strong cooperative relationships with our Tribal customers, and the FCC's goal of comprehensive engagement with Tribal authorities regarding telecommunications services, CenturyLink would like to once again extend an opportunity to meet with the Pueblo of Cochiti at your convenience.

For your convenience, I am attaching a reply form and envelope to facilitate the return of your response. The reply provides the opportunity for you to identify the Tribal representatives that would attend the meeting as well as identify issues of interest to you regarding CenturyLink and the services we provide. Please respond at your earliest convenience so that we can get a meeting date scheduled. Johnny Montoya, State Regulatory Affairs Director will coordinate the scheduling of our face-to-face meeting and work to identify additional CenturyLink personnel as needed to address your specific issues.

Please contact CenturyLink at 505-767-8510 or Johnny.Montoya@centurylink.com with any questions you may have regarding this letter. We at CenturyLink look forward to meeting with the Pueblo of Cochiti and to continuing a strong relationship that is beneficial to all involved.

Thank you for your attention.

Governor E. Paul Torres, Admin Stephanie Padilla
Pueblo of Isleta
PO Box 1270
Isleta Pueblo, NM

First, I would like to introduce Shelley Bailey, as your new Tribal Lands Liaison. If you have any questions or concerns, please don't hesitate to call or email her at 505-767-8514 or shelley.bailey@centurylink.com.

As Quarter 3 comes to a close, I wanted to share with you some updates on CenturyLink's continued progress as a follow up to our last letter in December of 2012. As partners equally vested in the growth and success of our communities and tribal land around the state, I thought you might find this information exciting and promising.

Network Upgrades and Internet Expansion

CenturyLink continues to invest millions of dollars in upgrading its network to maintain and improve its quality of service delivery as well as provide more businesses and house-holds access to high speed Internet and faster Internet with speeds up to 40M and well beyond. We are currently deploying our scheduled 2013 fiber deployments which will further these improvements. Additionally, CenturyLink has received funds from the Connect America Fund (CAF) which will enable the deployment of high speed Internet in 20 communities and tribal lands deemed "high cost" and thus otherwise may not see this type of investment.

Fiber to the Tower

CenturyLink is investing in "fiber to the tower" (FTTT) sites to support the growing data consumption associated with the increasing numbers of smart phones.

Local Community Investment

CenturyLink continues to invest in communities around the state. We are always looking for partnership opportunities as we focus on connecting people and communities, and enabling economic growth.

Savvis and Albuquerque Data Center

Through CenturyLink's recent purchases of Savvis and AppFog, we now are a world leader in managed hosted services which is a rapidly evolving and growing industry. Savvis allows businesses to save time and money while improving productivity. CenturyLink has 2.3 million square feet of data center space, 50 global data centers, 224,000 route-miles of network and 2 diverse internet backbones that are fully-owned and trusted by one data source. With applications from savvisdirect, services live in a

secure cloud, not on your network or the computers in your office. Which means you are free from worrying about or investing in new software, upgrades or maintenance. Along with these new competencies and related service offerings, CenturyLink in New Mexico boasts a 15,000 square-foot data center facility in Albuquerque with 24/7 physical security. This state-of-the-art facility is designed with the most advanced capabilities to protect and secure business equipment providing an ideal environment to facilitate information technology needs.

We are proud of our achievements over the past year and our increasing technological capabilities, and continue our efforts to provide New Mexico great access to quality services that meet the ever-changing needs of our customers.

Again, our local Market Development Manager and Tribal Lands Liaison, Shelley Bailey, will be your primary contact person. Please contact her directly at 505-767-8514 or shelley.bailey@centurylink.com with any questions or opportunities.

Regards,

Pueblo of Picuris
GOVERNOR RICHARD MERMEJO
PO Box 127
Penasco, NM 87553-0127

Dear Dear Pueblo of Picuris,

CenturyLink values its relationship with the Pueblo of Picuris and the opportunity to provide services that meet the needs of CenturyLink's customers located on Tribal lands. CenturyLink is striving to maintain a positive relationship with members of the Pueblo of Picuris through ongoing communications and, as appropriate, periodic meetings.

In late 2011, the Federal Communications Commission ("FCC") initiated steps to reform and modernize the federal universal service support system to ensure that robust, affordable voice and broadband service are available to Americans throughout the nation including those residing on Tribal lands.¹ In accord with the FCC's actions, late last year CenturyLink requested a meeting with representatives of your Tribal Government/Council to discuss the planning and potential deployment of services on Tribal lands as well as other areas of interest specific to conducting business on Tribal lands. The FCC has advised that the following topics be discussed: (1) deployment planning with a focus on Tribal community anchor institutions; (2) feasibility and sustainability planning; (3) marketing services on Tribal lands; (4) rights-or-way processes, land use permitting, facilities siting, environmental and cultural preservation review process; and (5) Tribal business and licensing requirements.

In furthering our goal of strong cooperative relationships with our Tribal customers, and the FCC's goal of comprehensive engagement with Tribal authorities regarding telecommunications services, CenturyLink would like to once again extend an opportunity to meet with the Pueblo of Picuris at your convenience.

For your convenience, I am attaching a reply form and envelope to facilitate the return of your response. The reply provides the opportunity for you to identify the Tribal representatives that would attend the meeting as well as identify issues of interest to you regarding CenturyLink and the services we provide. Please respond at your earliest convenience so that we can get a meeting date scheduled. Johnny Montoya, State Regulatory Affairs Director will coordinate the scheduling of our face-to-face meeting and work to identify additional CenturyLink personnel as needed to address your specific issues.

Please contact CenturyLink at 505-767-8510 or Johnny.Montoya@centurylink.com with any questions you may have regarding this letter. We at CenturyLink look forward to meeting with the Pueblo of Picuris and to continuing a strong relationship that is beneficial to all involved.

Thank you for your attention.

Governor George Rivera, Admin Melissa Talachy
Pueblo of Pojoaque [Southwest]
78 Cities of Gold Rd
Santa Fe, NM 87506-0918

First, I would like to introduce Shelley Bailey, as your new Tribal Lands Liaison. If you have any questions or concerns, please don't hesitate to call or email her at 505-767-8514 or shelley.bailey@centurylink.com.

As Quarter 3 comes to a close, I wanted to share with you some updates on CenturyLink's continued progress as a follow up to our last letter in December of 2012. As partners equally vested in the growth and success of our communities and tribal land around the state, I thought you might find this information exciting and promising.

Network Upgrades and Internet Expansion

CenturyLink continues to invest millions of dollars in upgrading its network to maintain and improve its quality of service delivery as well as provide more businesses and house-holds access to high speed Internet and faster Internet with speeds up to 40M and well beyond. We are currently deploying our scheduled 2013 fiber deployments which will further these improvements. Additionally, CenturyLink has received funds from the Connect America Fund (CAF) which will enable the deployment of high speed Internet in 20 communities and tribal lands deemed "high cost" and thus otherwise may not see this type of investment.

Fiber to the Tower

CenturyLink is investing in "fiber to the tower" (FTTT) sites to support the growing data consumption associated with the increasing numbers of smart phones.

Local Community Investment

CenturyLink continues to invest in communities around the state. We are always looking for partnership opportunities as we focus on connecting people and communities, and enabling economic growth.

Savvis and Albuquerque Data Center

Through CenturyLink's recent purchases of Savvis and AppFog, we now are a world leader in managed hosted services which is a rapidly evolving and growing industry. Savvis allows businesses to save time and money while improving productivity. CenturyLink has 2.3 million square feet of data center space, 50 global data centers, 224,000 route-miles of network and 2 diverse internet backbones that are fully-owned and trusted by one data source. With applications from savvisdirect, services live in a

secure cloud, not on your network or the computers in your office. Which means you are free from worrying about or investing in new software, upgrades or maintenance. Along with these new competencies and related service offerings, CenturyLink in New Mexico boasts a 15,000 square-foot data center facility in Albuquerque with 24/7 physical security. This state-of-the-art facility is designed with the most advanced capabilities to protect and secure business equipment providing an ideal environment to facilitate information technology needs.

Santa Fe, NM 87506

Dear Dear Pueblo of San Ildefonso,

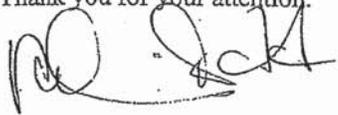

CenturyLink values its ongoing relationship with the Pueblo of San Ildefonso and the opportunities we have had this year to work together to meet the needs of CenturyLink's customers located on Tribal lands. As we approach the end of another year, CenturyLink would like to extend an opportunity to meet to discuss additional issues that may be of interest to you regarding our services.

As part of the ongoing reform of the federal universal service support system by the Federal Communications Commission ("FCC"), the FCC now requires telecommunications carriers like CenturyLink to engage, at least annually, in discussions with the Tribal entities they serve. The FCC has advised that the following topics be discussed: (1) deployment planning with a focus on Tribal community anchor institutions; (2) feasibility and sustainability planning; (3) marketing services on Tribal lands; (4) rights-of-way processes, land use permitting, facilities siting, environmental and cultural preservation review process; and (5) Tribal business and licensing requirements.

Please review the recommended list of potential discussion items from the FCC guidance, and let us know if you desire to meet again this year. For your convenience, I am attaching a reply form and envelope to facilitate the return of your response. The reply provides the opportunity for you to identify the Tribal representatives that would attend the meeting as well as identify issues of interest to you regarding CenturyLink and the services we provide. Please respond at your earliest convenience so that we can get a meeting date scheduled. Dear Dear Pueblo of Sandia,

CenturyLink values its relationship with the Pueblo of Sandia and the opportunity to provide services that meet the needs of CenturyLink's customers located on Tribal lands. CenturyLink is striving to maintain a positive relationship with members of the Pueblo of Sandia through ongoing communications and, as appropriate, periodic meetings.

In late 2011, the Federal Communications Commission ("FCC") initiated steps to reform and modernize the federal universal service support system to ensure that robust, affordable voice and broadband service are available to Americans throughout the nation including those residing on Tribal lands.¹ In accord with the FCC's actions, late last year CenturyLink requested a meeting with representatives of your Tribal Government/Council to discuss the planning and potential deployment of services on Tribal lands as well as other areas of interest specific to conducting business on Tribal lands. The FCC has advised that the following topics be discussed: (1) deployment planning with a focus on Tribal community anchor institutions; (2) feasibility and sustainability planning; (3) marketing services on Tribal lands; (4) rights-of-way processes, land use permitting, facilities siting, environmental and cultural preservation review process; and (5) Tribal business and licensing requirements.

In furthering our goal of strong cooperative relationships with our Tribal customers, and the FCC's goal of comprehensive engagement with Tribal authorities regarding telecommunications services, CenturyLink would like to once again extend an opportunity to meet with the Pueblo of Sandia at your convenience.

For your convenience, I am attaching a reply form and envelope to facilitate the return of your response. The reply provides the opportunity for you to identify the Tribal representatives that would attend the meeting as well as identify issues of interest to you regarding CenturyLink and the services we provide. Please respond at your earliest convenience so that we can get a meeting date scheduled. Johnny Montoya, State Regulatory Affairs Director will coordinate the scheduling of our face-to-face meeting and work to identify additional CenturyLink personnel as needed to address your specific issues.

Please contact CenturyLink at 505-767-8510 or Johnny.Montoya@centurylink.com with any questions you may have regarding this letter. We at CenturyLink look forward to meeting with the Pueblo of Sandia and to continuing a strong relationship that is beneficial to all involved.

First, I would like to introduce Shelley Bailey, as your new Tribal Lands Liaison. If you have any questions or concerns, please don't hesitate to call or email her at 505-767-8514 or shelley.bailey@centurylink.com.

As Quarter 3 comes to a close, I wanted to share with you some updates on CenturyLink's continued progress as a follow up to our last letter in December of 2012. As partners equally vested in the growth and success of our communities and tribal land around the state, I thought you might find this information exciting and promising.

Network Upgrades and Internet Expansion

CenturyLink continues to invest millions of dollars in upgrading its network to maintain and improve its quality of service delivery as well as provide more businesses and house-holds access to high speed Internet and faster Internet with speeds up to 40M and well beyond. We are currently deploying our scheduled 2013 fiber deployments which will further these improvements. Additionally, CenturyLink has received funds from the Connect America Fund (CAF) which will enable the deployment of high speed Internet in 20 communities and tribal lands deemed "high cost" and thus otherwise may not see this type of investment.

Fiber to the Tower

CenturyLink is investing in "fiber to the tower" (FTTT) sites to support the growing data consumption associated with the increasing numbers of smart phones.

Local Community Investment

CenturyLink continues to invest in communities around the state. We are always looking for partnership opportunities as we focus on connecting people and communities, and enabling economic growth.

First, I would like to introduce Shelley Bailey, as your new Tribal Lands Liaison. If you have any questions or concerns, please don't hesitate to call or email her at 505-767-8514 or shelley.bailey@centurylink.com.

As Quarter 3 comes to a close, I wanted to share with you some updates on CenturyLink's continued progress as a follow up to our last letter in December of 2012. As partners equally vested in the growth and success of our communities and tribal land around the state, I thought you might find this information exciting and promising.

Network Upgrades and Internet Expansion

CenturyLink continues to invest millions of dollars in upgrading its network to maintain and improve its quality of service delivery as well as provide more businesses and house-holds access to high speed Internet and faster Internet with speeds up to 40M and well beyond. We are currently deploying our scheduled 2013 fiber deployments which will further these improvements. Additionally, CenturyLink has received funds from the Connect America Fund (CAF) which will enable the deployment of high speed Internet in 20 communities and tribal lands deemed "high cost" and thus otherwise may not see this type of investment.

Fiber to the Tower

CenturyLink is investing in "fiber to the tower" (FTTT) sites to support the growing data consumption associated with the increasing numbers of smart phones.

Local Community Investment

CenturyLink continues to invest in communities around the state. We are always looking for partnership opportunities as we focus on connecting people and communities, and enabling economic growth.

Savvis and Albuquerque Data Center

Through CenturyLink's recent purchases of Savvis and AppFog, we now are a world leader in managed hosted services which is a rapidly evolving and growing industry. Savvis allows businesses to save time and money while improving productivity. CenturyLink has 2.3 million square feet of data center space, 50 global data centers, 224,000 route-miles of network and 2 diverse internet backbones that are fully-owned and trusted by one data source. With applications from savvisdirect, services live in a

secure cloud, not on your network or the computers in your office. Which means you are free from worrying about or investing in new software, upgrades or maintenance. Along with these new competencies and related service offerings, CenturyLink in New Mexico boasts a 15,000 square-foot data center facility in Albuquerque with 24/7 physical security. This state-of-the-art facility is designed with the most advanced capabilities to protect and secure business equipment providing an ideal environment to facilitate information technology needs.

We are proud of our achievements over the past year and our increasing technological capabilities, and continue our efforts to provide New Mexico great access to quality services that meet the ever-changing needs of our customers.

Again, our local Market Development Manager and Tribal Lands Liaison, Shelley Bailey, will be your primary contact person. Please contact her directly at 505-767-8514 or shelley.bailey@centurylink.com with any questions or opportunities.

Pueblo of Tesuque
GOVERNOR MARK MITCHELL
RR 42 Box 360T
Santa Fe, NM 87506-2632

Dear Dear Pueblo of Tesuque,

CenturyLink values its relationship with the Pueblo of Tesuque and the opportunity to provide services that meet the needs of CenturyLink's customers located on Tribal lands. CenturyLink is striving to maintain a positive relationship with members of the Pueblo of Tesuque through ongoing communications and, as appropriate, periodic meetings.

In late 2011, the Federal Communications Commission ("FCC") initiated steps to reform and modernize the federal universal service support system to ensure that robust, affordable voice and broadband service are available to Americans throughout the nation including those residing on Tribal lands.¹ In accord with the FCC's actions, late last year CenturyLink requested a meeting with representatives of your Tribal Government/Council to discuss the planning and potential deployment of services on Tribal lands as well as other areas of interest specific to conducting business on Tribal lands. The FCC has advised that the following topics be discussed: (1) deployment planning with a focus on Tribal community anchor institutions; (2) feasibility and sustainability planning; (3) marketing services on Tribal lands; (4) rights-of-way processes, land use permitting, facilities siting, environmental and cultural preservation review process; and (5) Tribal business and licensing requirements.

In furthering our goal of strong cooperative relationships with our Tribal customers, and the FCC's goal of comprehensive engagement with Tribal authorities regarding telecommunications services, CenturyLink would like to once again extend an opportunity to meet with the Pueblo of Tesuque at your convenience.

For your convenience, I am attaching a reply form and envelope to facilitate the return of your response. The reply provides the opportunity for you to identify the Tribal representatives that would attend the meeting as well as identify issues of interest to you regarding CenturyLink and the services we provide. Please respond at your earliest convenience so that we can get a meeting date scheduled. Johnny Montoya, State Regulatory Affairs Director will coordinate the scheduling of our face-to-face meeting and work to identify additional CenturyLink personnel as needed to address your specific issues.

Please contact CenturyLink at 505-767-8510 or Johnny.Montoya@centurylink.com with any questions you may have regarding this letter. We at CenturyLink look forward to meeting with the Pueblo of Tesuque and to continuing a strong relationship that is beneficial to all involved.

Thank you for your attention.

Dear Dear Navajo Nation,

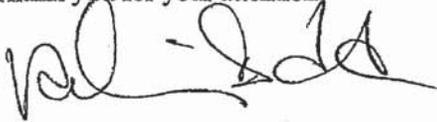

CenturyLink values its ongoing relationship with the Navajo Nation and the opportunities we have had this year to work together to meet the needs of CenturyLink's customers located on Tribal lands. As we approach the end of another year, CenturyLink would like to extend an opportunity to meet to discuss additional issues that may be of interest to you regarding our services.

As part of the ongoing reform of the federal universal service support system by the Federal Communications Commission ("FCC"), the FCC now requires telecommunications carriers like CenturyLink to engage, at least annually, in discussions with the Tribal entities they serve. The FCC has advised that the following topics be discussed: (1) deployment planning with a focus on Tribal community anchor institutions; (2) feasibility and sustainability planning; (3) marketing services on Tribal lands; (4) rights-of-way processes, land use permitting, facilities siting, environmental and cultural preservation review process; and (5) Tribal business and licensing requirements.

Please review the recommended list of potential discussion items from the FCC guidance, and let us know if you desire to meet again this year. For your convenience, I am attaching a reply form and envelope to facilitate the return of your response. The reply provides the opportunity for you to identify the Tribal representatives that would attend the meeting as well as identify issues of interest to you regarding CenturyLink and the services we provide. Please respond at your earliest convenience so that we can get a meeting date scheduled. <1210> Terms & Conditions of Voice Telephony Lifeline Plans

CenturyLink has over 100 local exchange carriers (LECs) that serve as eligible telecommunications carriers (ETCs) providing Lifeline discounts on local telephone service for qualifying low-income customers in thirty-seven states. Each LEC's local tariff contains the terms and conditions of voice telephony service plans generally available to CenturyLink residential customers. Lifeline provides discounts on CenturyLink residential service plans that include voice telephony service. Lifeline discounts provided to qualified recipients include the \$9.25 per month federal discount plus state discounts, if available. Tribal Lifeline recipients receive an additional federal Lifeline discount of up to \$25 per month. Eligible residents residing on Tribal lands in areas where CenturyLink receives universal service high-cost support can also receive a Tribal Link Up credit of not more than \$100 against one customary service initiation fee at a primary residence.

CenturyLink's flat-rated residential service plans provide unlimited local calling. Lifeline discounts also may be applied to local residential service plans that include a certain amount of local minutes or calls at a flat-rate and then have additional charges for minutes or calls beyond those included in the plan. Lifeline discounts may be applied to bundled service packages that include voice telephony services, such as bundles with internet service and/or video service. Lifeline discounts may also apply to voice service plans that include optional calling features such as caller ID, call waiting, and voicemail.

Toll service is available to customers receiving Lifeline discounts in the same manner that it is available to non-Lifeline customers. Toll limitation service is available to Lifeline customers at no charge.

Information concerning CenturyLink's Lifeline program can be found on our Lifeline web page at <http://www.centurylink.com/Pages/Support/LifeLine/>

A link to the CenturyLink tariff that includes the terms and conditions of this ETC's Lifeline offering is included in response to line 1220.

NOTES:

1. (112) – (118) The Federal Communications Commission in FCC DA 14-591 adopted May 1, 2014 waived the requirement that price cap recipients of frozen support or incremental support file five-year plans by July 1, 2014.
2. (220) Outages are reported using the criteria provided in 47 C.F.R. §54.313, which differs from the criteria in 47 C.F.R. §4.5 which is the basis for reporting outages to the Federal Communications Commission. Therefore, some outages may not have NORS numbers.
3. (300) – (310) CenturyLink is reporting any outstanding requests for voice service from 2013 that are unfulfilled at the time of this filing.
4. (320) – (330) CenturyLink is reporting any outstanding requests for broadband service from 2013 that are unfulfilled at the time of this filing.
5. (410 - 420) Complaints per 1,000 voice access lines are reported as complaints to any federal and/or state agencies.
6. (440 - 450) Complaints per 1,000 broadband customers are reported as complaints to any federal and/or state agencies.
7. (711) CenturyLink is reporting a-la-cart and data only broadband rates that meet or exceed both the required download speeds of four mega bits per second and upload speeds of one mega bit per second. Widely used upload speeds of 768K or below are not included in this report.
8. (811) – (813) Per FCC DA 13-1707 released August 6, 2013, CenturyLink is reporting holding company, operating companies, affiliates (as defined under section 3 of the Communications Act of 1934, as amended, 47 U.S.C. § 153(2)) that are designated as eligible telecommunications carriers and/or that provide retail broadband internet access to end-user customers.
9. (921) – (929) To the extent the carrier serves federally recognized tribal lands, the attached narrative, in response to line 920, should be relied on to describe tribal outreach and interaction. If the carrier offered to discuss the points listed in 47 C.F.R. §54.313(a)(9) to at least a majority of federally recognized tribes served in a study area, lines 921-929 were marked with a “yes” response.
10. (1000) – (1010) Carriers must certify that their local rates are at or below two standard deviations of the applicable national average urban rate for voice service, as specified in the most recent public notice issued by the Wireline Competition Bureau and Wireless Telecommunications Bureau. Qwest Corporation d/b/a CenturyLink (Wyoming) and United Telephone Company of the West d/b/a CenturyLink (Wyoming) have certain exchanges with explicit cost based local rates above this standard. Customers in such exchanges receive a Federal Universal Service credit and/or a State Universal Service credit explicitly on their bill. This results in a net charge that is lower than two standard deviations of the applicable national average urban rate for voice service.

11. (2000), (2005), (2013), and (2016) Per FCC DA 13-2101 released October 30, 2013, CenturyLink is certifying at a holding company level.

12. (3000-3026) This is not applicable to this company as it is considered to be a Federal Price Cap Carrier or an affiliate associated with a Federal Price Cap Carrier for the purposes of this filing.
