Re: Revision of Part 15 of the Commission's Rules to Permit Unlicensed National
Information Infrastructure (U-NII) Devices in the 5 GHz Band, ET Docket No.
13-49

As an ordinary citizen with a lifetime in technology fields I wish to support the position of the WISPA organization and others in strongly urging a reconsideration of limiting unlicensed use of one of the few frequency bands left available for public use.

I continually hear lip service given to the "innovative spirit" of the average American but continue to see restrictions placed on the average Americans ability to innovate and compete while maintaining the status quo, monopolistic, mega corporation strangl ehold on available communication options.

Sincerely Yours,
Douglas Wilson
