KEEP THE INTERNET FREE. The internet is NOT BROKEN & we don't need the FCC to take steps that will HURT the American internet user. We don't need another 2 tier system we already do: the HAVES & the HAVE-NOTS. Cable systems already hold us hostage & now they will kill us with higher rates. DO NOT permit these companies to become monopolies and feed their greed. Net Neutrality is the way to keep the internet available to ALL INCOME LEVELS. AT&T, Verizon, COX, Time Warner & especially Comcast (who spent \$18,810,000 in lobbying last yr.) have Washington in their pockets & now they want in ours. The fact that President Obama appointed Tom Wheeler (former top lobbyist for cable & wireless companies) as Chairman of the FCC is revolting (AND I'm an Obama supporter). Start-up competitors would NOT be able to afford the creation of choices for us, ergo MONOPOLIES. PROTECT US PLEASE. Victoria Graney, Mayer, Minnesota
