The commission may authorize individual telecommunications providers to establish telecommunications customer assistance programs that meet authorized goals and objectives for increasing or stabilizing subscription levels for non-optional, essential telephone service within its service territory or to address avoidance of disconnection or limitation of service to low-income households with payment problems. Such programs may allow a provider to not make available certain essential services, as defined in s. PSC 160.03(2), in order to preserve at least minimal telephone service to certain low-income households with payment problems. The commission shall determine on a case-by-case basis whether or not a telecommunications customer assistance program may receive universal service fund monies.

Lifeline rates are established according to s. PSC 160.062(1), (2) and (3), Wis. Adm. Code and are available to all qualified low-income customers.

B. Regulations

The Lifeline Program is available only to qualifying low-income residential customers with a single telephone line per household.

Customers may not be disconnected from Lifeline service for non-payment of toll charges.

If toll blocking is available and the customer has voluntarily elected toll blocking, a service deposit may not be collected to initiate Lifeline service.

Participation in the specified programs must be verified by the telephone company through the Wisconsin Department of Workforce Development (DWD), or the Wisconsin Department of Revenue.

Customers shall complete and remit any query authorization forms or forfeit eligibility. Verification of eligibility will be deemed to be the finding of the Social Security Number (SSN) and name of the listed customer in the active records of DWD for at least one of the specified income assistance programs, or to be a recipient of the Wisconsin homestead tax credit in the past year.

Credits will appear on an eligible customer's bill on the bill date next following the date of application for the Lifeline Program.
