We (myself & 6 yr old grandson) enjoy sitting together watching RFD-TV. RFD-TV IS REAL TV NOT reality tv. RFD-TV IS what true and real life IS about. It will be detrimental to our youngster, our future to live in a fantasy world. How can we live in the real world when the youngster are play in fantasy not understand what real life is. RDF-TV brings the real world to reality. Many youngsters now a days think you just go to the stores and buy what they need/want having NO clue where and how it originated.
