

Dear FCC

The US suffers enough from monopolies. There is already significant enough evidence to support the claim that TWC and Comcast both participate in a territory dividing scheme which reduces the competition in their desired markets, allowing them to drive prices through the roof and offer little to no customer service. There are a multitude of stories about incredibly awful and abusive treatment from both of these companies' customer service centers.

Allowing this merger will only exacerbate the situation. There are millions of Americans working from home and millions of American small businesses that rely on internet to function and prosper, and to allow this merger is to allow the corporations of the United States to further dictate our value as a people by forcing us to participate in their monopoly. THIS WILL HURT THE UNITED STATES.

We're already enough of a corpocratic state. DO. NOT. ALLOW. THIS. MERGER. IF. YOU. CARE. ABOUT. THE. USA. It really is as simple as that.

This is not entitled, us Americans deserve a fair treatment and the abuse of these companies needs to stop. Allowing this merger would only allow them to further abuse us as well as further preventing innovation and competition, both of which are intrinsic to a successful Capitalist Economy, and thusly intrinsic to the American Way of Life.

Thank you for your time.

Best regards  
Josh Watkins
