

***** Note to FCC Regarding Comcast-TWC Merger *****

*
* After dealing with both cable/internet providers, I firmly stand against the merger.

* Both companies are in the business of sitting back, raising prices, offering mediocre services,

* and doing absolutely no innovation. They have both reached the point where it is more cost-effective

* for them to spend millions in lobbying efforts rather than just deliver better services. In the age of

* technological innovation, I believe it is irresponsible to allow such an important UTILITY as the internet

* to be controlled by a company whose stance on innovation is so different than the rest of the country.

*
