FCC,

Please be aware that we are concerned about carriage of the rural, independent programming delivered by RFD-TV and RURAL TV being at stake now with the potential merger of Comcast Cable with Time Warner Cable, and the separate merger of AT&T U-Verse with DIRECTV. If approved by the FCC, these two mergers will control over 54,000,000 homes effecting RFD-TV and RURAL TV viewers in all 50 states.

RFD-TV and RURAL TV has the shows we watch and appreciate of rural Americans. We need to keep them on the air so there is something to preserve our culture in America.

Protect our stations before Comcast continues in removing rural America from the air.

Sincerely,  
Palmer Riddle
