Please do not remove RFDTV from cable/satellite broadcasting. Even though we live in a major city in the West, we greatly enjoy many of the shows only available to us on RFDTV. The variety of programming offered is appreciated and we have told many of our friends about them and they have also gotten a lot of enjoyment from watching. With so much going on in the USA today that does not support a strong family relationship or work ethic, it is refreshing to sit down and watch shows where we don't have to worry about the language, etc. We believe there are many others just like us who would consider it a grave disservice to lose such a fine broadcasting medium. Thank you.
