Dear FCC,

My name is Brian Galat and I live in Surprise, AZ.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it users may have fewer options and a less diverse Internet.

A pay-to-play Internet worries me because ISPs could act as the gatekeepers to their subscribers.

The Internet is important to me because, as an IT Support Professional, I need to know that there will not be barriers to entry for the new ideas and services that I hope to bring to the marketplace. If ISP subscribers have an easier time loading websites of existing companies than my new innovative product, there's no way that I will be able to compete or succeed.

Sincerely,

Brian Galat
