Dear FCC,

My name is Erik Holm and I live in La Jolla , CA.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it ISPs could have too much power to determine my Internet experience by providing better access to some services but not others.

A pay-to-play Internet worries me because ISPs could act as the gatekeepers to their subscribers.

The Internet is the one thing that can truly unite us all in a way that allows for a clean slate wherever you go. Without it I cannot imagine how many friendships and good times I would not have experienced.

Sincerely,

Erik Holm
