

7521484248.txt

Dear FCC,

My name is doug sutton and I live in solana beach, CA.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it users may have fewer options and a less diverse Internet.

A pay-to-play Internet worries me because ISPs could act as the gatekeepers to their subscribers.

ISPs should NOT be allowed to discriminate how we access websites.

Sincerely,

doug sutton
