Dear FCC,

My name is Lisa Barbaria and I live in Huntington Beach , CA.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it users may have fewer options and a less diverse Internet.

A pay-to-play Internet worries me because ISPs could act as the gatekeepers to their subscribers.

If ISP subscribers have an easier time loading websites of existing companies than my new innovative product, there's no way that I will be able to compete or succeed.

Sincerely,

Lisa Barbaria
