Dear FCC,

My name is Patrick Chantharangsy and I live in New Albany, OH.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it ISPs could have too much power to determine my Internet experience by providing better access to some services but not others.

A pay-to-play Internet worries me because ISPs could act as the gatekeepers to their subscribers.

A closed internet stifles innovation, growth, and progress.

Sincerely,

Patrick Chantharangsy
