Dear FCC,

My name is Gerald "Spencer" Dinan and I live in St. Louis, MO.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it users may have fewer options and a less diverse Internet.

A pay-to-play Internet worries me because ISPs could act as the gatekeepers to their subscribers.

Without freedom, the internet will collapse on itself. Then no one will benefit from it.

Sincerely,

Gerald "Spencer" Dinan
