Dear FCC,

My name is Zach Gervin and I live in Mountain View, CA.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it users may have fewer options and a less diverse Internet.

A pay-to-play Internet worries me because ISPs could act as the gatekeepers to their subscribers.

The internet is the best example of the first amendment in modern times. To take away free speech and make us pay more is actually what the redcoats wanted to do in 1776. So please do not fuck with the internet.

Sincerely,

Zach Gervin
