Dear FCC,

My name is Aaron and I live in sagamore hills, OH.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it ISPs could have too much power to determine my Internet experience by providing better access to some services but not others.

A pay-to-play Internet worries me because ISPs could act as the gatekeepers to their subscribers.

As a college student and honors student in a political science honors program it is simply immoral to restrict or monopolize the internet

Sincerely,

Aaron
