

To the FCC:

I am against to the merger between Time Warner Cable and Comcast. This merger will create a monopoly in the cable and internet service providers, and will greatly reduce options for service which is already poor. We do not have enough internet providers and not enough competition.

Both companies are known for extremely poor customer service, and I feel that this problem will be exacerbated once they merge and eliminate what is left from current, very poor competition in this industry.

Please deny this merger so that people will have a choice in service providers.
