

7521570990.txt

Dear FCC,

My name is Mikaela Zamarron and I live in Detroit , MI .

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it users may have fewer options and a less diverse Internet.

A pay-to-play Internet worries me because ISPs could act as the gatekeepers to their subscribers.

The Internet is important to me because, as a current high school student and future college student, technology and the internet is one of the most important mediums of communication. Limitation of the internet would limit how much I will be able to learn on my own. It also prevents the use of hundreds of websites useful to those who are autodidacts.

Sincerely,

Mikaela Zamarron
