Dear FCC,

My name is Carl and I live in green bay, WI.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it ISPs could have too much power to determine my Internet experience by providing better access to some services but not others.

A pay-to-play Internet worries me because ISPs could act as the gatekeepers to their subscribers.

The Internet is important to me because, its cheaper than cable and it gives me something to do when I've had a long day.

Sincerely,

Carl
