Dear FCC,

My name is Mayumi Long and I live in Hilo, HI.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it users may have fewer options and a less diverse Internet.

A pay-to-play Internet worries me because new, innovative services that can't afford expensive fees for better service will be less likely to succeed.

I'm only seventeen and I don't know what I'm going to do with my life. Afraid and naive, the only place I can rely on is the internet. The internet is such a special place because people are so free to share their thoughts, construct new ideas using the internet that we have now. Net neutrality could save me later on in life. I could create another social media network, create my own way to communicate with people like no one has before.

Sincerely,

Mayumi Long
