As an American citizen, I wanted to voice my opposition to the FCC's crippling new regulations that would put federal bureaucrats in charge of internet freedom, and urge you to stop these regulations before they're enacted.

If the federal government goes through these plans to regulate the internet, I know that the internet will change and not for the better. Government will make it impossible for internet providers to upgrade service meaning that costs will continue to go up, and service will begin to fall behind other countries.

Like many Americans, I believe that the internet should remain free of government control and unnecessary regulation just as it has for the last twenty years of unprecedented growth.

Please stop the FCC's dangerous new regulations, and protect the future of internet freedom here in America.
