As an American citizen, I wanted to voice my opposition to the FCC's crippling new regulations that would put federal bureaucrats in charge of internet freedom, and urge you to stop these regulations before they're enacted.

Infrastructure upgrades will become a thing of the past, because government will naturally favor entrenched special interests, rather than upstart companies that can do a better job at a cheaper price.

Like many Americans, I believe that the internet should remain free of government control and unnecessary regulation just as it has for the last twenty years of unprecedented growth.

Please stop the FCC's dangerous new regulations, and protect the future of internet freedom here in America.
