this station provides educational information and entertainment options that are unique today in tv viewing designed to highlight rural interest and preferences. As a former city urban resident for over 45 years RFD programing can give an insight to urban viewers who may otherwise not have an opportunity to view and understand rural issues. WE AS ONE NATION NEED TO UNDERSTAND WHAT AND HOW ALL SEGMENTS OF OUR POPULATION LIVE NOT JUST BE EXPOSED TO ONE SECTOR OF OUR MULTI-CULTURAL RURAL OR URBAN EXPERIENCE AND VALUES . Today as I write this petition there is a proposal to divide California into 6 separate states in part because urban and rural segments with in the state cannot appreciate issues that impact their neighbors lives and families. Do you want to disconnect a programing network that can inform and educate the urban viewer ? Big mi stake if you desire a BETTER UNION in these united states.
