FCC Chairman Tom Wheeler is pushing a plan that would allow rampant discrimination online. If approved, these rules would mean the end of Net Neutrality.

Wheeler's plan would let Internet service providers like AT&T, Comcast and Verizon create a two-tiered Internet, with fast lanes for those who can afford the extra fees and a slow dirt road for the rest of us. These companies would have the power to pick winners and losers online and discriminate against online content and applications, and no one would be able to do anything about it.
