I already have dirt-poor internet as it is. HECK! THE USA HAS THE WORST INFRASTRUCTURE FOR INTERNET AND YOU WANNA MAKE A PRIVILEGE SYSTEM THAT WOULD JUST FURTHER COMPLICATE THINGS INSTEAD OF BENEFITING ANYONE EXCEPT BIG NAME COMPANIES? Please. Go shove your idea up where it belongs and learn to look at a consumer perspective. "In USA, everyone has the same opportunity- except if you're dirt poor." Anyways, on a serious note: this will just stunt the growth of the internet. Things like these is what causes great inventions to just become irrelevant (*cough* Nikola Tesla's electric tower).
